SYNOD WEEK

Switzers have prepared for the extra pressure which they always experience during Synod week. After nearly 60 years of clerical tailoring and outfitting, their experience and intimate knowledge of clerical requirements has created a confidence in their work which is evidenced by an ever-increasing clientele. Your visit next week may prove an economical one, for the difficulty of obtaining reliable materials is likely to be still more acute in the near future. At present we have comprehensive though small stocks to select from.

Direct to the Paper Manufacturer. Sacks supplied Free of Charge. Vans collect daily in City and Subuçõe. Full Carriage Paid on country consignments, quantities of not less than one cwt.

Cleanliness

Anything that touches your skin should be absolutely clean. That is one of the great merits of Leilma Cream. In itself it is the perfection of cleanliness and purity; and it imparts the same qualities to the skin and complexion.

You can easily prove this. Just apply a little Icilma Cream, and then rub your face well with a newly-washed handkerchief. You will be surprised to see how much dust and dirt are removed, and how clean, soft and fresh your skin is after using Icilma Cream. Use it daily and look

Coal Shortage In Ireland

Notice to all Works, Shipyards, Mills and other Manufacturing Concerns.

ONSEQUENT upon the withdrawal, owing to urgent necessities elsewhere, of a considerable number of vessels usually employed carrying Coal from Ports in the United Kingdom to Ports in Ireland, and also, to the reduction in the output of the Calieries of Great Britain owing to the withdrawal of Miners for the Army, and for other reasons, the utmost economy in fuel will be necessary in order to maintain the full output of all essential undertakings and reduce, as far as possible, dislocation of ordinary commercial industries.

To enable the serious position to be met with to the best advantage, it is necessary that reliable statistical information from all undertakings concerned about be available.

ORMS have been sent to firms, asking for particulars of Coal Consumption during 1917 and 1918, stock on hands, purpose for which Coal is used. Machinery, &c. If a Form has not been received and filled up by any firm concerned application should be made at once to the undersigned, stating the amount of Coal consumed during the years. 1917 The object of this is to ensure that due consideration will be given to all when available supplies are being distributed.
